2022 NSU Scholarship Fishing Tournament

Nova Southeastern University and its Halmos College of Arts and Sciences and the Guy Harvey Oceanographic Research Center is proud to present the 10th annual NSU Scholarship Fishing Tournament!

The mission of the tournament is to be recognized as the premier, not-for-profit fishing tournament in the Southeast for the benefit of education and research. Accordingly, the tournament promotes conservation by mandated release of all billfishes and the responsible take of fun fish.

Net proceeds from the tournament and donations create the endowed NSU Fishing Tournament Scholarship Fund, which provides support for high-achieving students who are engaged in outstanding scientific research.
